Bio

Omar Abed is an award-winning children's book author. After a decade spent writing software as a professional engineer, Omar rediscovered his childhood passion for storytelling. His picture books offer a generational bridge, making children laugh out loud while helping adults rediscover the magic of a good story.

Omar is Palestinian-American and lives in Northern Virginia with his family.

The Journey

I loved reading as a child. Once I grew older, a casual interest in music translated to an admiration for spoken-word poetry.

I studied computer engineering in college, but continued using poetry to express myself. Some of my poetry worked well as children's books, and the jump between formats felt natural.

I self-published my first book to learn about the publishing process and industry. Afterwards, I signed with an agent and sold my formal debut to Penguin Random House.

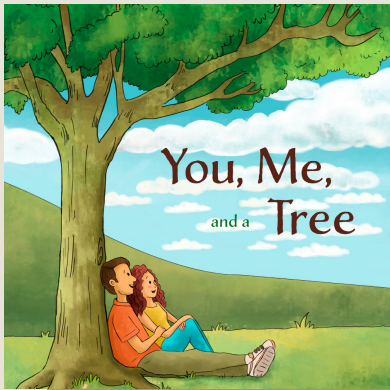

With more stories on the way, my journey continues to unfold.
